

Ch.	Connecting Networks	
	<b>1 Hierarchical Network Design</b>	<b>6 Broadcast Solutions</b>
	1.1 Hierarchical Network Design Overview	6.1 Teleworking
	1.2 Cisco Enterprise Architecture	6.2 Comparing Broadcast Solutions
	1.3 Evolving Network Architectures	6.3 Configuring xDSL Connectivity
	<b>2 Connecting to the WAN</b>	<b>7 Securing Site-to-Site Connectivity</b>
	2.1 WAN Technologies Overview	7.1 VPNs
	2.2 Selecting a WAN Technology	7.2 Site-to-Site GRE Tunnels
		7.3 Introducing IPSec
		7.4 Remote Access
	<b>3 Point-to-Point Connections</b>	<b>8 Monitoring the Network</b>
	3.1 Serial Point-to-Point Overview	8.1 Syslog
	3.2 PPP Operation	8.2 SNMP
	3.3 Configure PPP	8.3 Netflow
	3.4 Troubleshoot WAN Connectivity	
	<b>4 Frame Relay</b>	<b>9 Troubleshooting the Network</b>
	4.1 Introduction to Frame Relay	9.1 Troubleshooting with a Systematic Approach
	4.2 Configure Frame Relay	9.2 Network Troubleshooting
	4.3 Troubleshoot Connectivity	
	<b>5 Network Address Translation for IPv4</b>	
	5.1 NAT Operation	
	5.2 Configuring NAT	
	5.3 Troubleshoot NAT	

Table 4. Connecting Networks Detailed Course Outlines
